HOW TO CURE CONSUMPTION.

THE PHILOSOPHY OF DR. SCHENCK'S GREAT MEDICINES.—Will people never learn to know that a diseased liver and stomach necessarily disease the entire system? The plainest principles of common sense teach this and yet there are hundreds who ridicule the idea, and continue in the course which almost inevitably brings them prematurely to the grave. Living as the majority of the people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act: the liver fails to perform its functions, dyspepsia and its attendant evils follow, and still the suffering individuals persist in clinging to the thoroughly exploded idea of the past. Dr. SCHENK'S medicines are recommended to all such. They bring sure and certain relief wherever they are used as directed, and all that is necessary to establish their reputation with every ailing man or woman in the landis a fair and impartial trial of them. Let those who are skeptical on this point, and who have permitted interested persons to prejudice them against these now celebrated remedies for consumption, discard their prejudices, and be governed by the principles of reason and common sense. If the system is disordered depend upon it, in nine cases out of ten the seat of the disorder will be found in the stomach and liver. To cleanse and invigorate the stomach and to stimulate the liver to healthy action, use

SCHENCK'S MANDRAKE PILLS.—The daily increasing demand for these pills in the best evidence of their value. Thousands upon thousands of boxes are sold daily. Why? Simply because they act promptly and efficiently Invalids who may not find it convenient to call on Dr. SCHENCK in person are informed that full and complete directions for use accompany each package of the

MANDRAKE PILLS, PULMONIC SYRUP AND SEAWEED TONIC.—These medicines will cure consumption unless the lungs are so far gone that the patient is entire ly beyond the reach of medical relief.

It may be asked by those who are not familiar with the virtues of these great remedies, "How do Dr. Schenck's medicines effect their wonderful cures of consumption?"

The answer is a simple one. They begin their work of restoration by bringing the stomach, liver and bowels into an active healthy condition. It is God that cures this formidable disease. SCHENCK'S MANDRAKE PILLS act on the liver and stomach, promoting healthy secretion, and removing the bile and slime which have resulted from the inactive or torpid condition of those organs, and of the system generally. This sluggish state of the body, and the consequent accumulation of the unhealthy substances named prevent the proper digestion of food, and, as a natural consequence creates disease, which results in prostration and finally in death.

SCHENCK'S PULMONIC SYRUP and SEAWEED TONIC, when taken regularly, mingle with the food, and the digestive organs, make good and rich blood, and as a natural consequence, give flesh and strength to the patient. Let the faculty say what it may, this is the only true cure for consumption. Experience has proved beyond the shadow of a doubt, and thousands are to-day alive and well who a few years since were regarded as hopeless cases, but who were induced to try Dr. SCHENCK'S remedies, and were restored to permanent health by their use.

One of the first steps the physician should take with a consumptive patient is to invigorate the system. Now how is this to be done? Certainly not by giving medicines that exhaust and enervate—medicines that impair *instead of improve the functions of the digestive organs* Doctor SCHENCK'S medicines cleanse the stomach and bowels of all substances which are calculated to irritate or weaken them. They create an appetite—promote healthful digestion—make good blood, and, as a consequence, they *invigorate* and strengthen the entire system and more especially those parts which are diseased If this cannot be done, then the case must be regarded as a hopeless one.

If the physician finds it impossible to make a patient feel hungry, if the deceased person cannot partake of good nourishing food and properly digest it, it is impossible that he can gain in flesh and strength: and it is equally impossible to bring a patient to this condition so long as the liver is burdened with diseased bile, and the stomach laden with unhealthy slime.

Almost the first request made to the physician by a consumptive patient is that he will prescribe medicines that will allay the cough, night sweats and chills, which are the sure attendants on consumption. But this should not be done, as the cough is only an effort of nature to relieve itself, and the night sweats and chills are caused by the diseased lungs. The remedies ordinarily prescribed do more harm than good. They impair the functions of the stomach, impede healthy digestion, and aggravate rather than cure the disease.

There is, after all, nothing like facts which to substantiate a position, and it is upon fact that Dr. Schenck's relies. Nearly all who have taken his medicines in accordance with his directions have not only been cured of consumption, but, from the fact that these medicines act with wonderful power upon the digestive organs, patients thus cured speedily gain flesh. Cleansing the system of all impurities, they lay the foundation for a solid, substantial structure. Restoring these organs to health, they create an appetite. The food is properly assimilated the quantity of blood is not only increased, but is made rich and strong and in the face of such a condition of the system all disease must be banished.

Full directions accompany each of the medicines, so that it is not absolutely necessary that patients should see Dr SCHENCK personally, unless they desire to have their lungs examined. For this purpose he is at his office, No 15 North Sixth St., corner of Commerce, Phila., every Saturday, from 9 A. M. until 1 P. M.

Advice is given without charge, but for a thorough examination with the Respirometer the charge is $5.

Price of the Pulmonic Syrup and Seaweed Tonic each, $1 50 per bottle, or $7 50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. Ap.12 1y.

THE SONG OF THE FRYING-PAN.

BY JOHN G. HAGEN.

Though the tones of the lute may when feelingly played
Accord with the heart of the love-smitten maid,
Tho' the shrill-sounding fife, or the soft plaintive flute,
Or the deep-swelling organ may others' taste suit,
There's no music so sweet to the hard-working man
As the music that is made by the hot frying-pan!

Nor is it alone in melody's sound
That the source of our exquisite pleasure is found,
For there is the promise of excellent cheer
Wherever its soul-stirring strains we may hear.
O, never was music since music began
Like music that is made by the hot frying-pan!

When weary and hungry at noon-day we come,
To enjoy the repast that awaits us at home,
Appeal to the tastes of the young and the old,
By all you will frankly and freely be told
They never heard music could cheer them more than
The music that is made by the hot frying-pan!

Then tell me no more of piano or lute,
The deep-swelling organ, the soft plaintive flute,
The singing of birds or the humming of bees,
There is music, sweet music, no doubt, in all these,
But match me, O match me, ye gods, if ye can,
The music that is made by the hot frying-pan!

[For the Globe.]

Reply to "R. J. A."

MESSRS. EDITORS:—Your correspondent H. C. B, in compliance with *requests from several individuals of high* standing, both in civil and religious society, ventured upon that article for the *Globe* entitled "Our Duty and Destiny as a Nation."

He had long since passed that period of life in which he could have any aspirations after promotion, either in church or state, and could only hope that his article might be as a drop in the bucket, in much needed reformation in his beloved country. But little did he think that his feeble effort would cast him into the gigantic gripe of your correspondent in the *Globe* of the 21st inst., over the signature of R J. A., much less into the very jaws of a lion from the seven hills, the very site of infallibility. A few centuries ago this little affair might have exposed your humble correspondent to the horrible inquisition, then clothed in *santo bantio*, thence to the stake and to the flames, thence to purgatory, thence, if poor, to sink deeper and deeper in torture down through all eternity. But, thank God, H. C. B was born late in the eighteenth century, a citizen of the *United States, a native of good old* Huntingdon county, where it is our high privilege to protest freely against *all foreign or domestic tyranny*, and all corruption of every kind, and we will protest. It is high ground for gratitude to every American citizen that his holiness, the center of "infallibility," is fast losing his terrors; the Lion has lost so many of his teeth and claws that he is now more like the fossil Mastodon, Megatherium or any other fossil monster than a living Lion.

But I have been highly amused with the hifalutin article of R. J. A. in the last *Globe*, headed "Popery the Bugbear of little Minds." The sneers and taunts contained in the article are sufficient to reveal the vanity of the writer. The modesty that belongs to generous minds very plainly is not his, whilst the self-conceit which bigots posses, *is visible in every line; but he* of course is infallible. I am not a minister, and therefore I need not consider *myself challenged*, but if I were, I say plainly that I would not belittle myself to debate with any man whose mind is so constituted as to believe in "papal infallibility," or who has the hardihood at this late day to pronounce our interest in the Bible in public schools "all moonshine." A minister of the Gospel discussing the infallibility of apostacy with R. J. A! The American ministry has not come to that. I occupy a much humbler place in society than our protestant ministers of the Gospel. I am simply a blacksmith. The smithshop was my college; the hammer for nearly forty years was the instrumental means of sustaining a family; and never, like R. J. A. had I the high privilege of "traveling a considerable part of the habitable globe" in order to discover that dear old Huntingdon has discovered to him "more prejudice" in a few months than he had witnessed elsewhere in twenty-five years. But I was heir to one high privilege, and that was, no pope, bishop, or priest, ever dare approach my father's cabin to filch from his humble home and his poor family their precious bible, the sacred charter of all their rights, civil and religious; he had fought in the revolution and had a just appreciation of hierarchal tyranny — After this traveler had visited such a large part of our world, doubtless his high aspirations often prompted those aerial flights so elevated toward the heavens, that he had to stoop to see this little planet of ours. And is it any wonder that after such glorious sights and sounds, as soon as he touched earth, with great pomp and majesty to ask, "How dare he (I) or anybody else to raise their voice against the Ecumenical council?" I do not raise my voice against the council; that body of sages may sit there till doom's day for anything that I care. In fact I wish it would resolve itself into a perpetual motion—it would only perpetuate the absurdity of the dogma. Nevertheless, *we dare*, yes, lackey of his holiness, we dare! The Pope's heel is not on our country; thanks to the Bible and public schools, we do our own thinking here and so we *dare*.

But, Messrs. Editors, that there is one man in good old Huntingdon who endorses the "infallibility" at Rome—one who recognizes the unlimited authority of a foreigner—one who, claiming to be an American citizen, and professing allegiance to *our government*, is ready to yield an unquestioning obedience to a proclaimed enemy of our free institutions—one who is owned, body and soul, by a foreign power!—Is there any President who can emancipate R. J. A?

The writer pronounces it a "foolish assertion" that the Romanists want to take the Bible from our public schools. If he has no such desire I am certainly glad of it, and I hope he will come out squarely, and assure us that he and his papist friend in Huntingdon are willing to have the Bible remain in our schools, and that they have no desire to disturb us on this subject. But very certain it is that papists in other sections of our country are exerting themselves to this very end. Yea, they have not only labored to banish the Bible from our schools, but they have also proclaimed war against our public schools themselves. Not content with coming here and enjoying the privilege of education in common with ourselves, these people who *belong to a foreign government* are resolved on tearing down the very temple in which we have generously granted them shelter. But much as R. J. A. has learned in traveling, he has something to learn yet, after all. I suspect that "his foolish assertion" is only an effort to divert attention from the sore spot; but we will hold them to it. Romanists are hostile to the Bible and public schools, and this hostility is dangerous to human liberty.

He refers to divisions amongst Protestants, and thinks we need a Pope to make us a unit, and would further have us infer that the happy family of the world is the papal church. Now, he is certainly very ignorant himself, or imagines that everybody else is very ignorant, if he expects such a statement to be believed in this land of Bibles and free schools. We have some knowledge of the Jansonists and Jesuites, of the heated contests between Pope Boniface and Benedict, two infallible rivals reigning at one time; both of whom were declared heretics and usurpers; of the contradictions between Nicholas 4th and Pelagius; of the contradictions between Sylvester 4th and all previous Popes; of the Isidorian decretals; of the twenty years' division about the ordination of Pope Formosas; and to mention no *more of the hot divisions and "sects"* now assembled in the vatican, questioning like politicians about infallibility. Mr. lecturer, please take the beam out of your own eye.

He has found more prejudice in "Huntingdon" than ever before. He has certainly never been in Rome.—There Protestants cannot bury their dead as they would like; but Romanists can bury their dead in Huntingdon as they see fit. In Rome Protestants are denied the right to worship God as they choose, but in Huntingdon Papists may worship *something* without let or hindrance. This is a free country, Rome is not. Alas for his "infallibility."

And now, Mr. Editor, I shall only say to your correspondent, R J. A., that there is great difference between pomposity and good breeding; that no *American gentleman would enter* the list with an antagonist only worthy the vulgar epithets he has chosen to apply to me, such as ignorant bungler, insanity fool, moonshine, bagtull of wind, &c. Had his index expurgatory been in force in good old Huntingdon county seventy years ago, doubtless those vulgar epithets would now be applicable; but I cannot now yield manhood so far as to take further notice of R. J. A. till he reforms his vocabulary, employs reason instead of assertion, and logic instead of pompous invective. But if he is in possession of such polimical powers as to justify his bold challenge I would respectfully suggest to him to read the history of the reformation by Luther, Calvin, and others; then such authors as McGavin, Paschal, Cumming, Father Gevazzi, Curwin, and such other works on Popery as may fall in his way, and after he has demolished those arguments, I would further suggest that he proceed logically to establish the "infallibility" of the Pope, next his immutability, which is essential to infallibility Then he may proceed to justify the inquisition, purgatory, extreme unction, confession, the right of Popes to assume universal ecclesiastical and civil authority, and to require kings and civil rulers to kiss his feet, together with *the countless fictions of Popery; then* let him vindicate the morality of the Jesuite casuists. After he has finished *this he will richly deserve the cardi*nal's cap. I would vote him the successor of the present imbecile Pope.—*Then my good old friends* in Huntingdon will see their folly; their "prejudice" will all melt away under the genial beams of such a grand luminary, and they will rush forward to do homage at his feet and I amongst them. But I know the people of Huntingdon, I have known them long, and to know is to love them, and I can assure him they will never yield to vituperation, billingsgate or bitter epithets of reproach; but they are a reasoning people, and will listen to such arguments as are suggested. Finally, I shall feel myself absolved from any further notice of R. J. A., until he generously condescends to comply with the foregoing reasonable request, for the benefit of my good old Huntingdon friends and for me. H. C. B.

Decker was elected President pro tem. and S. W. Gehrett Secretary pro tem. Religious exercises conducted by Rev. A. W. Decker. It was then discussed by* Rev. Shoemaker, Mrs K W Clarkson, Dr I Guss, Hon D Clarkson, Jas Norris and S W *Gehrett. Adjourned to meet at* 2:30 p m.

Afternoon Session.

This session was assigned for the childrens meeting. Pine Grove, Bland Chapel and Cassville Sunday Schools present. James Norris, Esq., Rev. Shoemaker, and Mrs Ashman, of Scotsville, Rev A W Decker, Dr Guss, and S W Gehrett of Cassville, and B F Glasgow, Esq, of Calvin, were introduced to the Convention, each of whom addressed the children. The exercises were enlivened and made interesting by the sweet singing of Pine Grove and Bland Chapel Schools. After the children were dismissed, "Temperance work in the Sunday Schools was opened by Rev Shoemaker, followed by Dr Guss and James Norris. The discussion on this topic was unusually interesting and a committee on resolutions made the following report, which was adopted:

Resolved, That it is the sense of this Convention that the "Complete Sunday School Idea is expressed in the Bible," by Solomon, when he says:—"Train up a child in the way he should go, and when he is old he will never depart from it."

Resolved, That the Sunday School is the nursery of the Church. We believe it would be an advantage to both, that our minister be required to preach but twice on each Sunday, and attend the session of at least one Sunday School.

Resolved, That a good way of training our Sunday School scholars to regular habits of attending church, would be, in addition to parental authority, and the precepts and example of the teacher, to preach more frequently on Sunday School topics, and occasionally base the sermon upon the lesson of the day, adapting it to the capacity of the young.

Resolved, That the most strenuous efforts should be made both by the school and by the Church to enlist the co-operation of parents in the Sunday School work.

Resolved, Wherever it is practicable advanced Sunday School scholars should be especially trained for the teachers' office in the best manner that can be devised.

Resolved, That it is not in all cases beneficial to form Sunday Schools into Missionary societies.

Resolved, That it is desirable that Sunday School teachers should be converted persons.

Resoleed, That a uniformity of lessons is essential to success in the Sunday school enterprise, and that the Bureau System be recommended to the consideration of the schools of this circuit, with a view to their introduction.

Resolved, That this Convention has sympathy with all measures which will lessen the evils of intemperance, and recommend the inculcation of total abstinence principles in the Sunday Schools of this circuit.

Resolved, That the heartfelt thanks of this convention are given to the citizens of Calvin and vicinity, for their urbanity and hospitality in the entertainment of friends from a distance.

On motion, minutes of convention were ordered to be printed in two of the Huntingdon county papers. Place of holding next Convention, at Eagle Foundry. Adjourned with benediction by Rev. Shoemaker.

This was conclusive, and the delegation merely replied, 'Farewell!' and vanished.

Fulton's First Steamboat.

A correspondent of the Geneva *Courier relates the following story of* the *Kate Morgan*, the little steamer which for more than a generation has plied on Cayuga Lake, her owners obeying the behest of the first proprietor, to "run her till she busts!"

Before the *Chancellor Livingstone* stemmed the current of the Hudson, yet after the little *Clermont* had stirred the quieter waters of the Collect Pond, the whistle of the *Kate Morgan* awoke the echoes in Taughanic Glen, and her paddle wheel dashed the spray upon Cayuga bridge. There is a bit of romance attached to her name and building.

Old General Morgan, of Revolutionary fame, had a noble estate on the Eastern bank of the lake, not far from where the present Wells College now stands. Between his only daughter, a lovely girl of eighteen, and young Fulton, had long existed a tender attachment, which, however, the poverty and obscurity of Robert led the General to severely frown upon. Fulton went to New York. He labored long years in perfecting his invention; his day of triumph came, and then he wrote to the stern father relating his success and asking for the daughter's hand.

"Nay," wrote back the incredulous old soldier. "I'll believe what I see with my own eyes. Come you back, scapegrace, to the lake; build and sail a steamboat past my own door, and then, and not till then, shall you have my daughter Kate."

Need I say that Fulton came joyfully back, that a steamer was built as rapidly as circumstances would permit, that she was launched, and in due time did sail triumphantly past the General's door! But let me add that, according to an express stipulation made by the sly Robert in case he succeeded—when the *Kate Morgan* sheered in towards the General's dock a small boat was seen pushing out containing the original Kate, her grim father and a gentleman in clerical vestments They were soon on board, and there, amid the waving of flags, the ringing of bells, and the blowing of whistles, the proud inventor and his prouder bride were made one. A glorious sweep up and down the lake completed the first bridal trip by steam ever known in this country.

Before we leave this historic boat let us go below a moment. Here are the old-fashioned engines, inscribed "Treman, Cartwright & Co." They were the first engine builders in the United States, and furnished both Fulton's and Fitch's boats. Cartwright was the father of the well-known Peter Cartwright, the Western backwoods preacher.

Glance now at the cabin. Its upholstering was furnished by A. T. Stewart, at that time an enterprising young tradesman, keeping a little seven by nine shop in Chambers street. Through the lustre of the *goods* had long since passed away, its durability remains, to attest to the honesty and *good judgment* of the young dealer, and by which he has since risen to be the foremost merchant of our country.

WHICH WAY ARE YOU GOING?—A little girl named Sarah, went home from church full of what she had seen and heard. Sitting at the table with the family, she asked her father, who was a very wicked man, whether he ever prayed. He did not like the question, and in a very angry manner replied, "Is it your mother or your aunt Sally that has put you up to that my little girl?"

"No, father said the little creature, "the preacher said all good people pray, and those who don't pray are not going to heaven. Father, do you pray?"

This was more than her dear father could stand, and in a rough way he said: "Well, your mother and your aunt Sally may go your way, and I will go mine."

"Father," said the little creature, with sweet simplicity, "which way are you going?"

This question pierced his heart. It flashed upon him that he was on the way to death. He started from his chair, burst into tears, and from that day was a changed man.

Republican County Convention.

A Convention of the Union Republicans of Huntingdon county, will be held at the Court House in the Borough of Huntingdon, on TUESDAY, AUGUST 9TH, 1870, at 1 o'clock, p. m.

This Convention will be composed of two delegates from each township, borough, ward and district.

The Republican voters of the county are requested to meet at their respective places of holding elections (except those of the West ward of the borough of Huntingdon, who will hold their election at the new Engine House,) on Saturday, the 6th day of August—in the Townships, between the hours of 3 and 7 o'clock, p. m, and in the Boroughs between the hours of 6 and 9 o'clock, p. m., for the purpose of electing delegates to this Convention.

Nominations will be made at the Convention for Congress, State Senate, Assembly, Associate Judge, County Commissioner, Director of the Poor, and County Auditor.

WM. LEWIS,
Chairman Republican County Committee.

THE Republican party in Crawford county, at their recent primary elections, repudiated the Crawford county system of nominating candidates by a large majority. The arguments of the advocates of change was the production of figures showing that when the system was first adopted their majority was 3,000, whereas now it is but 1,000.

"WE want to see union and harmony in the party."—*Cremer's Republican.*

How do you propose to bring it about? By justifying the conduct of the faction that defeated the party last year, and demanding that your faction should have the control of the next convention and its nominations? We have seen no other proposition coming from you. You can't have union and harmony on such terms.

"LET all come to the primary meetings and to the convention on *equal terms.*"—*Cremer's Republican.*

So far so good—and we demand that all who "come on *equal terms*" pledge themselves to support *all* the nominees of the convention. Will you accept such an arrangement, or do you propose to come in on *"equal terms"* only until you can see how far your faction can be successful in controlling the nominations, then to bolt them again if they should not be of your kind?

"THE "situation" in Huntingdon county is anything but pleasing to contemplate."—*Blair County Radical.*

And those who helped to make the "situation" as it is want to control the nominations in the county, Senatorial and Congressional districts. If they are not permitted to do so they will not agree to support the nominees—The bolters can not come in and make the "situation" any better than it was last year, unless they come in to take their chances and to support in good faith the whole ticket to be nominated.

"HUNTINGDON county is the home of Senator Scott, and he certainly should be able to reconcile the local differences there which imperil the ascendancy of the Republican party in the State Senate."—*Beaver Radical.*

The Beaver *Radical* is most respectfully informed that Mr. Scott *created* the differences and trouble in this county by organizing last fall a guerrilla opposition to a regularly nominated ticket that defeated several good Republicans. If the State Senate and a Congressman should be lost to the party at the next election, Mr. Scott, Mr. Morrell, and others working in harmony with them, will have to be responsible for the loss to the party.

"RED HOT."—Judging from a recent issue of Pomeroy's *Democrat*, the Democratic editors who recently assembled at Altoona, are going to be "red hot" from this time forward. "Brick" was at the convention, and went away warmed up to blood heat, and now spurts out his venom with renewed fury. He says the Democratic editors in this State are going to follow suit, and if we dont have plenty of hot shot teeming out of the lesser Parrots it will not be because "Brick" doesn't furnish them the "iron." Go in Big Brick, Little Bricks, one and all, and let us see what your desperate efforts will amount to, when the killed and wounded are picked off the battle-field.

BOTH the *Journal* and *Republican* complain of us because, as they allege, we have belonged to "so many different parties." If we *have* belonged to "so many different parties" it was not our fault. Parties had no business to *go out* as often as they did and leave us in the cold. The *Republican* party had no national existence during the war—then we had a *Union* party.—Gen. Grant was our candidate, and he was nominated by a National *Republican* Convention, and we are *there* now, with the sweets and the sours, and intend to stay there, but we wish it to be distinctly understood that we don't endorse *all* that Congress has been working at. Once a Democrat, next a Union man, and now a Republican—ever "so many different parties"—either more respectable than a "guerrilla" faction.

Why have they Refused to Act?

We call the attention of the Republican voters of the county to the following resolution offered by Robert McDivitt, 'editor of the *Journal & American*, and unanimously adopted, at a meeting of the Republican County Committee held at the Franklin House in this place on the 19th of April last:

Resolved, That for the sake of promoting that harmony and concert of action which is essential to the success of the party, we deem it advisable to invite the co-operation of the other committee, and for this purpose that we now appoint a sub-committee consisting of five members to meet at as early a day as practicable, a similar committee from that body, provided such committee be appointed, in order to receive and report any propositions made by them in regard to some plan whereby the united and harmonious action of the party may be secured.

S. S. Glasgow, Levi Evans, Wm Lewis, George W. Owens and Harris Richardson, were appointed said committee.

The "*other committee*" that was invited to act "for the sake of promoting that harmony and concert of action which is essential to the success of the party" is the Logan or "My Committee"—the same committee that at a meeting in the Court House last fall repudiated the greater part of the regularly nominated Republican ticket, and united with the Democratic party and succeeded in electing several Democrats to important offices over the heads of soldiers and good Republicans. That "other committee"—or its chairman—refused to accept the invitation given them in the above resolution, but instead, Mr. Logan took the responsibility of having placed in our hands for our consideration the following letter:

HUNTINGDON, PA., June 11, 1870.

MR. WM. LEWIS: Dear Sir:—There have for some time past, as you are aware, existed some dissentions in the Republican County Committee, which has resulted in the appointment of another body, of which you are chairman. I do not now propose to say anything about the regularity of this proceeding, but regarding the success of the party, and the great measures which it supports, as of far more importance than anything in controversy between us, and believing it to be the duty of every man who either is or claims to be a member of the Republican County Committee, to yield more personal considerations for the sake of the party, and the principles which he represents, I now propose to join with you in a general call for the election of delegates to a County Convention to be held at the usual time and places. With a desire to avoid all difficulty in holding the coming Convention I hope you will agree to this proposition, and thereby close the breach between us. "Let us have peace."

Yours truly, &c., M. M. LOGAN.

Not willing to take the responsibility of acting contrary to the instructions of the committee that elected us its chairman, or of monopolizing the duties of the sub-committee, we returned to Mr. Logan the following reply to his letter:

HUNTINGDON, PA., June 27, 1870.

M. M. LOGAN:—I have a simple duty to perform, and that is to be governed by the action of the Committee that elected me its chairman. I refer you to the proceedings of the Committee as published in the *Republican*, *Journal & American*, and *Globe*, some time since.

Yours resp'y., WM. LEWIS.

We may add another reason why we could not join with Mr. Logan in a general call for the election of delegates to a county convention, unless directed to do so by the committee of which we are chairman. The last political action of Mr. Logan known to the Republican party, he was working with the Democrats for the success of Democratic candidates—we have seen nothing of him since to give us any assurance that he would not be *there* again at the next election, for his organ, the *Republican*, refuses to pledge its support to the ticket to be nominated. We do not intend to *join with* any Republicans or any men claiming to be Republicans, who are willing to pledge their support to the party only until the meeting of the convention, then to play guerrilla again if they cannot have their favorites nominated. We cannot go into a political partnership with any such men, and we take the responsibility of saying that all true party men will approve our course. We can have no party *success* if men claiming to be Republicans can be permitted to play fast and loose at will and still be recognized as honorable and worthy members of the party. Once make guerrillaism respectable and the Republican party will be the minority party in the county, districts and State.

JUDGE MCCANDLESS, of this District Court of the United States, which sat in Williamsport, has delivered an important decision as to the liability of market gardeners to pay license as brokers. The decision was in the case of a man near Williamsport, who cultivated forty acres of land, the product of which he sold in that city without a license. The decision of the court is that he must take out a license to do so. This case was brought before the court more for the purpose of making a test case than to punish the defendant, and Judge MCCANDLESS appears to have given it a careful consideration and a clear exposition of the law on the subject. Under Judge MCCANDLESS view of the law, every farmer who goes to market and sells the product of his farm will be required to take out a government license.

The "Situation."

"If the so-called People's League undertake to pack the Convention and succeed as they did last year, they will find that in the language of Geo. W. Owens, Esq, the Republican party does not abate one iota of its hostility to secret organizations in its ranks.—IF THE SAME CAUSE EXISTS THE SAME EFFECT WILL ASSUREDLY FOLLOW."—*Cremer's Republican.*

So says the *organ* of the faction that defeated a part of the Republican ticket last fall. So far as a "so-called People's League" having packed the convention last fall, is only an assertion to mislead and deceive the voters. If a secret political League had anything to do with packing the convention it must have been the League Robt. McDivitt was sworn into, and Robert says *that* League was not a Woods' League. Robert ought to know for Cremer says he worked in harmony with it until his price was refused when he came over to the support of the regular ticket and denounced his former associates as "guerrillas," &c.

But, just now, we wish to call the attention of the Republican voters to the terms of compromise the organ of the bolters offers: "*If the same cause exists the same effect will assuredly follow.*" In plain English the bolters say to the Republicans who remained true to party nominations, "give us the control of the convention—nominate the men we want nominated, and we will support the ticket, but if any man should be nominated who is not a decided enemy of Woods, or is not with us, we will again unite with the Democrats to defeat him."

Such is the declaration of the faction adhering to the *Republican* as its organ. Such is the compromise offered by Logan and his committee. With *such* party men a "coming together" is impossible. They must agree to support the nominations of the convention before they are made, and no man should be offered for nomination who is not willing to pledge his support to the whole ticket. Any other compromise would leave the way open for another disgraceful contest, and another Republican defeat.

Let them Speak.

The *Journal & American* of the 29th ult. says:

"Mr. Logan, by his action last fall, in using his position [of chairman] to defeat the ticket, forfeited all claims that ever he had to the title."

That's just so, the whole truth and nothing but the truth, but where was the editor of the *Journal & American* when Mr. Logan "fell from grace?"—Let the *Republican*, the organ of the guerrillas, speak. It says:

"The *Journal* editor, who was almost a chairman of a county committee, to day advises the party to meet in convention and appoint a third committee, &c. That, we think, would only complicate the difficulty. *And as the course pursued by Mr. Logan last fall was counselled and advised by Mr. McDivitt, who also brought out Mr. Cloyd*, and afterwards denounced them both as 'guerrillas,' his advice is not likely to be followed now."

That's putting Robert in the same boat with the "guerrillas" until it got under headway when he got weak in the knees, deserted the crew, and returned to the party organization.—Where Robert would have been during the whole campaign, had we not been where we were, is not very hard to guess.

CREMER CAN LIE.—In his last paper he says we say that those who opposed the ticket last year "should not have a voice at a delegate election or in a county convention." We say no such thing, but still we would not be *much* wrong if we would say so. We have said, and say again, that "men who are not willing to yield to the will of the majority in convention should not claim to be of the party—neither should they have a voice at a delegate election or in the county convention." If Mr. Cremer and his bolting friends wish to take part in the next delegate elections we don't think there will be any serious objections to them doing so, but as honorable men they should not take part in the election of delegates unless they intend to support the ticket to be nominated by the delegates.

AMERICA has the biggest river, the biggest cave, the biggest park, the biggest railroad, the biggest government, the biggest politicians, the biggest scamps, and is of itself the hugest wonder now in existence. It has done some big things in its time, and the Lord only knows what it is going to do. It would require one historian to write every moment of the day to keep up with it, and yet it moves with accelerated speed. O, America, thou giant of progress, who dost keep kings and potentates in awe, let not vain pride reduce thy strength nor rob thee of thy well learned laurels.

WILL the editors of the *Journal & American* tell us what are "the *most vital* and *important* principles of the party." We may be mistaken in our notion of what they are. We want to be right. We don't suppose it is necessary to endorse all Sumner's notions to be a Republican.

It is said that one of the tallest horses in the world, standing nineteen hands high, is owned in St. Johns, N. B.

Rhode Island is to have a board of female inspectors for its prisons.

THE NEW YORK "*Globe*" says:—MASSACHUSETTS is rocking to its centre with agitation about the Chinese.—Most of this opposition comes from the order of St. Crispin's in that State, where it is estimated to be sixty thousand strong. These Crispins have attempted to control the manufacture of shoes, and have attempted to dictate terms to the manufacturer. A Mr. SAMPSON, of North Adams, resolved to be independent of the order, so he sent an agent to San Francisco, and in thirty days he had seventy old Chinamen in his shop at work, who owed no allegiance to St. Crispin. This was a blow direct in the face of a large and powerful secret organization, and as was to be expected there has been an immense commotion since.—The St. Crispins have determined to "wipe out the Chinese," peacefully at the ballot-box, if they can, forcibly if they must, as some of the speakers at the meeting in Tremont Temple, Boston, said last week. The order is evidently fully aroused, and the storm which is brewing promises to be the next great excitement of the day. All sorts of politicians and demagogues are making use of this question for political purposes, to arouse the passions of the people and excite their prejudices. The air is filled with all sorts of stories about the Chinese, and certain newspapers teem with most remarkable assertions concerning them. The astonishment is as great as if a set of unknown beings had dropped from the moon or some of the other planets.

"THE assertion in the *Globe*, that we refused to publish the call is simply not true."—*Journal & American.*

The call was placed in the hands of Mr. McDivitt in his office over two weeks ago—the *Journal & American* has been issued twice since but the call does not appear in either issue.—Why has it not appeared in that paper if the editors do not refuse to publish it? Who lies?

☞ The Union Prayer Meetings on Saturday evening are so poorly attended that there is some talk of abandoning them.

THE WARM SPRINGS.—We understand the Warm Springs is having quite a run this season. Mrs. Rachel Murrells does up the catables.

APPOINTED by the Governor—Mr. James Bricker of this place to be a Notary Public. Mr. Bricker is a good business man and a reliable Republican.

☞ Our borough fathers have not yet rebuilt the bridge across Muddy Run on Washington street—a well traveled thoroughfare. Wonder why?

☞ Col. Summer's Castilian Garden is the resort of hundreds these evenings. Why shouldn't it be, when his excellent Ice Cream is such a great attraction.

☞ The new Catholic church of the Immaculate Conception, Dudley, will be dedicated on Thursday, 21st inst. Services will begin at 8 A. M. The public are invited to attend.

☞ Jenks thinks the sum total of the liquor sold and drank in this place the last holidays would more than pay the expenses of the Sabbath School Convention on the 13th and 14th.

☞ The work on the foundation for the weigh scales in front of the engine house in this borough was resumed last week and has been completed—They will be ready for use in a few days.

☞ Don't tell anybody. J. R. Baker will open his Normal Select School at Orbisonia, Pa, on Monday, July 18 for a session of at least six weeks.—Terms moderate. Send for a circular, or go yourself. *

☞ An excursion party, comprising a number of Presbyterians, of this place, went to Clearfield on Friday last for the purpose of seeing the church at that place. They returned in the evening having had a pleasant trip.

☞ Luke Reilly is kept as busy as he can be in supplying the steadily increasing demand for his superior Candies and Syrups. Those wanting anything in this line will do well to give him a trial, as his prices and the quality compete with those of city manufacturers.

☞ The Kishacoquillas Seminary, of which Prof. M. Mohler is the Principal, closed on Friday, June 24th, with a literary entertainment. It was said by all present to be highly creditable to the Institution. It marked a higher order of talent and culture than has been exhibited on similar occasions formerly. The Institution is evidently growing. Its halls will be more than full next term.

LEG BROKE.—A man named David Keller, who has been engaged in hauling wood for Mr. Heffright, got his leg broke on Monday afternoon last. He was coming down a steep hill near Snyder's hollow below town, in his wagon, but fearing that it would upset, he jumped to the ground, when his leg was caught under the wheel and broken below the knee. Drs. Miller and Fleming were called, who at once reset the limb, and he is doing well.

SNAKES KILLED.—Two large rattlesnakes were recently killed near Shoemaker's on the road leading to the Warm Springs. The first one made its appearance from under the house, near the feet of Mr. S's. family, whilst they were sitting on the porch, and was dispatched by them. The other was seen a few days after on the highway and killed by a berrying party.—It is supposed they were mates. They each had nine rattles, and were as thick as a man's arm.

THE FOURTH.—The glorious Fourth was celebrated in Huntingdon with about the same degree of enthusiasm. Before the day arrived, the question was where are you going on the Fourth, and when the day did come, many went to other places to see what was to be seen. A delegation of Red Men, comprising twenty two members, and a large number of other citizens went to Tyrone, while a number went to Altoona and Cresson. All Huntingdon however, did not go away, for there appeared to be as many on the streets as usual, and in the afternoon several parties went to the Warm Springs. We had no parades, no horse races or balloon ascensions, but we had several fights, which were engaged in by some rough customers, who used the knife in a dangerous manner. So Huntingdon celebrated the Fourth, and so we opine, it will continue to celebrate it unless some unknown power would fill us with the spirit of 1776 instead of 1870.

Methodist S. S. Convention at Mt. Union

The annual Sunday School Convention of the Juniata District, in pursuance to the call of the executive committee met at Mt. Union June 29, closing its session June 30. The Presiding Elder of the district, Rev. B. B. Hamlin, D. D., was unanimously chosen President of the Convention. Towards the close of the session the Secretaries were instructed to send to the newspapers within the bounds of the District, the report of the Committee an resolutions, together with all other resolutions of general interest passed by the Convention. The following is the report of the committee above referred to:

Resolved, That this Convention recommends that all our Sunday Schools be organized according to the form of constitution in the Discipline.

Resolved, That we heartily recommend to all the schools of the District the adoption of uniformity of lessons, and that those who are not acquainted with the Bureau Lessons, published by Rev. J. H. Vincent, be requested to examine them with the view to their introduction.

Resolved, That weekly teachers' meetings be established for the study of the lesson, whenever practicable.

Resolved, That we recommend that all our Schools be formed into Missionary societies according to the Discipline of the Church.

Resolved, That the total abstinence pledge from all intoxicating drinks, including domestic wine, be introduced into all the schools.

After the reading of an essay on "Circuit Conventions" by Rev. S. A. Creveling, it was resolved that this Convention recognizes the importance and utility of Circuit Conventions, and recommended that they be held on charges wherever practicable.

On motion of Rev. J. Thrush, the executive committee for the ensuing year was appointed, to consist of the two Juniata District members of the sunday school committee of the Annual Conference, together with the preacher in charge and Sunday School Superintendent of Huntingdon, and the Presiding Elder of the District.

It was resolved that the next annual Convention be constituted as follows:

Each station shall be represented by the lay delegates, and each circuit by the pastor or pastors and one lay delegate from each school within its bounds.

It was resolved that this Convention is most decidedly opposed to any of the schools, appropriating for school purposes, money raised by the Missionary Societies in the schools.

It was resolved that a total abstinence pledge from the use of all tobacco be recommended to our schools.

The following resolution offered by Rev. A. M. Barnitz was adopted:

Whereas, The Discipline makes it obligatory upon us to inductiunte our children, and recommend the free use of the catechism in our schools, and believing that it is of equal importance with the uniform lessons so highly recommended, therefore, resolved that this be made a prominent part of the exercises of our schools.

The placed fixed upon for holding the next Annual Convention is Huntingdon, and the time the last Tuesday in May, 1870.

Rev. J. D. Brown, Missionary from India, was present and added greatly to the interest of the Convention by an address, in which he asked and answered such popular questions as very largely developed the native of the missionary work in India.

Suicide.

A German named Henry Kres committed suicide in jail on Tuesday evening last, the 5th inst, by cutting his throat, from ear to ear, with a razor. He had sat down for the purpose of shaving, when he committed the deed. He fell backwards a corpse on the floor, where he was discovered shortly afterwards, surrounded by a mass of blood. It is not known what impelled him to the commission of the deed, but it is thought he was laboring under a melancholy aberration of mind. He has been in town but a short time, and was in search of work as a cabinet maker, but not finding any, he indulged in liquor, to great excess—He was placed in jail on the charge of stealing some carpenter tools. During Tuesday he was seen by the prisoners to walk around with his hands clasped, and head bent as if moping over some calamity. He leaves a wife, who resides in Petersburg, this county.

A Scare.

On Sunday evening last, whilst the different churches were holding service, the alarm of fire was raised, which circulated with great rapidity, and reached the Methodist church, where some person with the lungs of a Choctaw indian, gave a scream of "Fire" that had the effect of causing the whole congregation to start to their feet and rush pell mell to the door, some not even waiting to go through the aisles, but jumping over the benches. The minister had just commenced his sermon, but was obliged to give way to the pressure, or preach to empty benches. The other churches were not disturbed by any excited screamer, but continued services. The alarm was created by a coal-oil lamp having been upset in a house on Railroad street, and taking fire, but fortunately no damage was done; and nothing would have been known of it had not one of the inmates raised the alarm before it was necessary.

Our Public Schools.

We learn that the board of directors at their recent meeting adopted a resolution which will materially change the *regime* of our public schools. The intention is to secure a first class teacher or professor, who will have charge of the principal school, in which the languages and the higher branches will be taught, and who will have control of all the grades. This is a wise step, as it will insure an excellent and thorough elementary training for all children whose parents do not feel able to send them to an academy, and it will place the educational advantages of Huntingdon far above many other towns.

To meet the expenses of this new system, the amount of taxes will be levied at 2¼ mills on the dollar, which is a very moderate rate for such a great necessity. One thousand dollars is to be appropriated to repairing and furnishing the schools, of which they stand in need.

A GOOD NUMBER.—*The Phrenological Journal* and *Packard's Monthly*, for July, begins its 51st volume, with marked improvements. It contains, besides Physiognomy, Ethnology, Psychology, etc, portraits and characters of Beethoven, Sir Samuel W. HUNTINGDON COUNTY

SABBATH SCHOOL CONVENTION

TO BE HELD AT THE

Court House, Huntingdon, Penn'a., on WEDNESDAY, and Thursday, JULY 13th and 14th, 1870, Commencing at 10 o'clock, a. m., on Wednesday.

The object of this Convention is to awaken a deeper and more general interest in the Sabbath School work throughout our county, and organize a County Sabbath School Convention. It is earnestly requested that each evangelical Sabbath School in the county will send two active delegates. A cordial invitation is also extended to ministers of the Gospel, and to Sabbath School officers and teachers, male and female. Interested parties are invited also to come from districts where no Sabbath Schools is yet organized. Delegates should bring statistics from their schools, as to number of scholars and teachers, male and female, condition of library, names of officers, &c.

Rev. Geo. A. Pelts, President of the Pennsylvania Sabbath School Association, and other able and zealous workers in the cause, are expected to be present. Entertainment for all who attend. All who propose to come are requested to notify by mail, J. S. Blair chairman of Committee on Entertainment, before the 5th of July, so that provision can be made for entertainment. Delegates on arriving will report at the Recorders' Office in the Court House.

James A. Brown.
Committee on call.

WORTH KNOWING.—If brooms are wet in boiling suds once a week, they will become very tough, will not cut the carpet, last much longer, and always sweep like a new broom. A very dusty carpet may be cleaned by setting a pail of cold water out by the door, wet the broom in it, knock it to get off all the drops, sweep a yard or so, then wash the broom as before, and sweep again, being careful to shake all the drops off the broom, and not sweep far at a time. If done with care, it will clean a carpet very nicely, and you will be surprised at the quantity of dirt in the water. The water may need changing once or twice, if the carpet is very dirty. Moistened Indian meal is used with good effect by some house keepers, and salt by others.—*Lan. Intelligencer.*

ADDRESS

TO THE

NERVOUS AND DEBILITATED,

WHOSE SUFFERINGS HAVE BEEN PROTRACTED

FROM HIDDEN CAUSES, AND WHOSE

CASES REQUIRE

PROMPT TREATMENT.

TO RENDER EXISTENCE DESIRABLE

If you are suffering, or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urine organs, or your kidneys, get out of order? Is your urine sometimes thick, milky or flocky, or is it ropy on settling? Or does a thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, moping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as bright? Do you enjoy yourself in society as well? Do you possess as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you rest less nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver complaint?

Now, reader, self abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged, they are always polite and pleasant in company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflated by running to excess. These will not only ruin their constitution, but those they do business with or for.

How many men, from badly cured diseases, from the effects of self abuse and excesses, have brought about that state of weakness in these organs that has reduced the general system so much as to induce almost every other disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every form of disease humanity is heir to—and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.

ROSADALIS

ROSADALIS is the Great American Health Restorer, purifies the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and thousand of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis and for our Rosadalis Guide to Health or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore says:

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of all alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of scrofula and secondary Syphilis with satisfactory results—as a cleanser of the blood I know no better remedy.

Samuel G. McFadden, Murfreeboro' Tennessee, says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes, I have suffered for twenty years with an inveterate eruption over my body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by John Read and S. S. Smith, Huntingdon, Pa., and Druggists generally.

COUGHS, SORE THROAT, ETC.

No medicine or treatment can excel the powerful curative power of

DR. SIMMS'

WHITE PULMONIC BALSAM.

It cures with a rapidity unequalled by any other remedy offered for throat and lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country. Mr. Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this popularity arises from the fact that it universally cures all who use it. There is no case of

COUGHS, COLDS, SORE THROAT,
ASTHMA, BRONCHITIS, CROUP,

BLOOD SPITTING, HOARSENESS, and even Pulmonary Consumption, where the system is not broken down with the wear of the disease, or protracted medicining, or inexperienced advice, that this Balsam will not cure if carefully used according to directions. Economy in Seed Planting.

Experiments have recently tended to prove that roots and grains, by being planted much farther apart than is usual, will actually yield larger crops than are now obtained. This has been shown to be the case with potatoes, and more recently with wheat. It is found that the wheat plant increases above the ground in proportion as its roots have room to develop without interference with those of its neighbor. In one experiment wheat thus treated furnished ears containing over 120 grains. It was found in the course of the same experiments that on every fully developed cereal plant there is one superior to the rest: and that each ear has one grain which, when planted, will be more productive than any other. By selecting, therefore, the best grain of the best ear, and continuing the experiment through several generations, a point will be reached beyond which further improvement is impossible and a fixed and permanent type remains as the final result.

Who Should Have it.

"It is said when mechanics have land they generally give it better cultivation than farmers, and consequently have more grapes, pears, strawberries and water melons, and earlier potatoes and cucumbers. They devote more care and labor to a small space, and reap a larger profit from it."

If any one will look at the immense crops a very small garden will produce for a family, and compare it with the little crops from very large farms, *they should need no better inducement* to enrich their soil highly.

The great point to remember is this, that labor is the great item in farming; but that it takes more labor to farm rich ground than poor ground. We have, as it were double crops with the same single labor.

Thinning Out Fruit.—Thin out the pears where they over-bear, removing every knotty and wormy specimen.—There are some varieties that grow in clusters, and do not generally over bear—from these the wormy or worthless ones only should be removed; but where the tree is not too large to manage, and are not cluster-growing, no two specimens should be allowed to touch, as they are almost certain to become wormy and both are lost.—Many persons, not acquainted with fruit raising, hesitate to thin out their trees, on the ground that the crop may be diminished. This may be possibly but not positively true, if the fruit is intended to be fed by the pigs. But even should it be otherwise true sometimes, who would not prefer to have one bushel of large, beautiful, luscious pears, to five bushels with probably not a half a peck among the whole fit to put upon your table or send to market?—*Germantown Telegraph.*

Turnips Among Corn.—A correspondent says: It is frequently the case that in passing through corn-fields in autumn, we find space between the rows occupied with sturdy weeds, sometimes the spurious vegetation completely overtops the maize, and "casts it into the shade." Now, I would inquire, is it not much better and more prudent, in every sense of the word, for the farmer to occupy the soil monopolized by the exhaust-weeds with some crop that will contribute to his resources, than to have it filled with such production, and which will not only "sap the land" most wretchedly, but foul it by the dissemination of their minute and multitudinous seeds? Certainly no farmer can doubt the affirmative. By sowing the purple-top turnip seed at the last dressing of the corn crop, and "scuffling," it in or sowing just before a rain and allowing that to cover it, he can have a hundred bushels of good turnips per acre, if the soil is rich and well cultivated, instead of a host of worthless and pestilent weeds.

Where the Flies Comes From.—Flies will soon be abundant, and most people wonder where they come from.—Our readers, if they remember the following paragraph, can answer the inquiry: "The eggs of the house fly are laid in decaying matter, such as dead leaves, and especially in the manure of stables, about seventy or eighty being the usual number. These soon hatch, and the larvæ grows rapidly, feeding upon the substances found near it. After a short time the outer skin hardens, and becomes brown and tough, forming a case shaped like a little barrel divided into rings. The transformation of the larvæ is quickly made and the animal is soon ready to emerge as a perfect insect.

How to Fry Potatoes.—Prof. Blot gives the following directions for frying potatoes: Cut them in whatever form you wish above a bowl of cold water, so that they will drop into it. Then drain and wipe them dry. This must be done quickly, so as not to allow the potatoes to turn reddish.—Have a coarse towel ready, then turn the potatoes into a colander, and immediately turn them into the towel, shake them a little, and quickly drop them in hot fat. When done, turn them into a colander, sprinkle salt on them, and serve hot. If you wish them light or swelled, leave the potatoes in the colander only about half a minute, then put them back in the very hot fat, stir for about a minute, and put them again in the colander. If the fat is very hot, when dropped into it for the second time they will certainly swell. Bear in mind that fried potatoes must be eaten hot as possible. Fry only one side at a time as it takes three times as long to fry them when cut in pieces as when sliced.

McGUIRE'S

SPANISH HAR DRESSER

FOR PROMOTING THE GROWTH, BEAUTIFYING THE HAIR,

And rendering it dark and glossy. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The use of this oil as a hair dresser has been universal in every section of the country in the Spanish Main for centuries.—No preparation of art could give that elegant luxuriance and abundance of hair which have so often been the admiration of travelers in Spain. This oil is highly and delicately perfumed, forming an article unrivaled in excellence and upon which the Spanish people for many years have set its seal of enduring approval.

McGUIRE'S

Mexican Wild Flowers Shampoo Lotion

For removing dandruff and scurf from the head, whitening and perfuming the skin. This article is entirely different from anything of the kind ever offered in this country and is warranted free from all poisonous substances This valuable lotion was used by *the Emperor Maximilian*, and Empress Carlotta of Mexico, and universally used by Mexicans for three hundred years. As a wash for the head—it is cooling, cleansing and refreshing.—When thus used it at once relieves headache.

McGUIRE'S

WILD FLOWERS FOR THE TEETH.

All those who are in favor of white teeth and a pleasant and perfumed breath, should at once use McGuire's Wild Flowers for the Teeth. All these preparations are put up in the most elegant and ornamental manner. We make no exception in saying that they are an ornament to a lady's toilet table, and none complete without them.

Warranted satisfactory or money refunded. Dealers will bear this in mind. Sold by all respectable Druggists in the United States and Canadas. Address orders to
